NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE

TRUESMAR—I do not commence unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna are affixed upon each wrapper and upon and each case

Sold by Dr B A BARROW—Member of the Imperial College of Vienna and Royal College of Surgeons London who may be personally consulted at his residence No 197 Prince Street (few blocks West of Broadway) New York from 11 o'clock in the morning, till 2 and from 6 o'clock till 9 in the evening, (Sundays excepted)

TRUESMAR No 1—Is either cure of general and local debility loss of viral power, impotency, and all the distressing consequences arising from early abuse or excesses all physical impediments vanish like magic before its influence, thus rendering its use unavoidable to those entering the marriage state

TRUESMAR No 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population

TRUESMAR No 3—Is the great European remedy for that class of disorders which unfortunately the English physician feels so well necessary to the inevitable destruction of the patient's constitution and which all the Sarsaparilla in the world cannot cure, viz

TRUESMAR Nos 1 2 and 3—are prepared in the form of a lozenge—void of taste or smell and can be carried in the pocket—Price $5 per case—but in cases as directed in separate packages as easy as watered by Valpeau, Lalleman Roux Ricord, &c Price $3 each, or four cases for one for $9, which saves $3 and in 27 cases, whereby there is a saving of $9

Special arrangements have been made with the various Expresses the nine dollar cases of the Truesmar and the big cases will be forwarded by Dr Barrow carriage paid immediately on receiving a remittance to any part of the world, securely packed and addressed according to the instructions of the writer. They are going to the public genuine European preparations and feel confidently protecting them from spurious imitations. The three authentic essentials but not free of carriage

American Safety Paper
Manufacturing Company of N. Y.
Capital $500,000.
A NICHOLAS President Office 70 Wall st

A PAPER certificate against all manner of Fraud or counterfeiting Paper—to Protect that Paper from Alteration—and to Detect Counterfeits Erasures and Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN a celebrated chemist and officer in the British army it is hardly necessary to say that the Paper is recommended by Mr Reid U S Assayer of the U S Mint Mr Lyman of the New York Clearing Houseand Meade Brothers extensive and skillful photographers 246 Broadway N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—3 cts per lb
Bank Bill —$18 for 1000 sheets
Bill of Exchange—$2 for 1000 sheet
Promissory Notes—10 cts per lb
Sight and Time Drafts—$2 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb
For wrapping Silks and other fine articles it is excellent, as it prevents moths 40 cts per lb
For Indentures and Agreements 40 cts per lb
All Wills and County Records should always be printed or written on this paper as the ocean seals inserted in the pulp not only prevents erasure or transfer but makes it lasting as time

For Southern climates it is excellent and much superior to any other as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies and the Central American States, no public records can be kept over 25 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No. 70 Wall street, New York

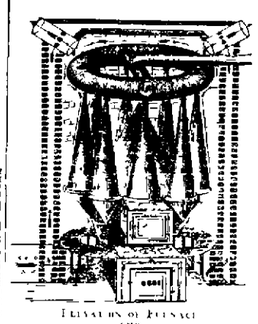
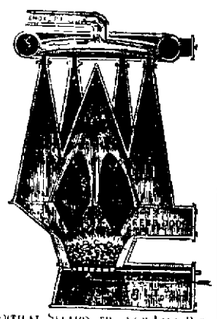
CHILSON'S
NEW CONE FURNACE,
Just Completed and Patented in America, England and France.
This Invention is offered as a Challenge to the World
FOR ALL HEATING PURPOSES.



ELEVATION OF FURNACE AND SECTION OF BRICK WORK

Five Sizes of Cone Furnaces
Five Sizes of Trio Portable Furnaces
Five Sizes of Trio Stoves



VERTICAL SECTION THROUGH FIRE POTS CONES AND ANNULAR CHAMBER SHOWING THE ACTION OF HEAT ON THE CONE

Thirty years of practical experience as an Inventor and Manufacturer of Heating and Cooking Apparatus has enabled Mr Chilson to arrive at certain new discoveries and improvements to which we beg to call the special attention of those about erecting or remodeling buildings as well as dealers in hot air steam or hot water Furnaces, and all interested in steam power to a careful examination of the most important feature the discovery of the age in the construction of Heating Apparatus and the most economical plan yet discovered for burning fuel This invention entirely changes the character and principle of Hot Air Furnaces developing another and a new principle not known before The thorough and highly satisfactory trial of a large number of Cone Furnaces in use the past cold winter, clearly proves the most wonderful economy in fuel ever yet attained, together with the extraordinary heating power which insures a certainty of having a warm and more comfortable healthful heat from furnaces to be attributed to the unscientific inventions so ably adapted for the purposes of warming buildings No intelligent person that can see or get correct information of the Cone heating principle will be liable to adopt any other plan for heating buildings

The following is a partial description of the Cone Furnace it represents by the cut above —a broad and shallow fire pot, broad at the top, and lined with soapstone or other stone to prevent the pots from burning out and the poisonous smoke and gases that pass through the cracked iron pots and expanded joints of the common Hot Air Furnace from escaping into the apartments to be warmed so common with Hot Air Furnaces Also to avoid the iron coming in contact with the red hot fire pot as it destroys the oxygen, or vitality in the air The fire pot rests on a deep cast iron frame with ash pit fitted sitting grates for screening the fire from the pot ash burnt coals Surmounting the fire pot is a large CONICAL OR HOLLOW IRON CONES, OR TAPERING RADIATORS the case of each cone being very large and the tops very small making the future outlets combined equal to the area of the smoke pipe leading to the chimney Surmounting the cluster of cones is a large annular chamber or a cast iron hollow ring the powerful radiator into which escapes the small jets of heated smoke and gases that are not fully exhausted in the cones where they are made to circulate around the chamber and where a second process of combustion takes place and from thence into the centre or cross pipe that connects the smoke pipe with the chimney thus securing he grand object of confining or keeping back the smoke gases &c heated and in contact with the fire burning the combustion out of the smoke and gases, the last of the atoms of which if burning fuel is suffered to pass out of the chimney in a crude or unconsumed state and lost a power which is an amount sufficient to warm every building in the city This arrangement escapes the formerly wasted smoke and gases to be suspended and compressed into contact ring cones over and near to the fuel—they become highly heated cousins, a thorough combustion so that not only all the heat from the fuel is saved but there is one additional and powerful heat attained by the reflection of the heat and light from the fire pot upward seeking or impinging against the whole inner surface of the cones where it is brought to a focus at the top of each cone and under the action of the sun on the glass or lens (and in no other way can the magic be found or attained)

The Cone Furnace receives the highest commendation from all who see it as the first result of the greatest scientific attainments in such matters It received the first premium and ONLY GOLD MEDAL ever awarded on a Furnace in Massachusetts, at the late Fair of the Massachusetts Charitable Mechanic Association held in Boston There are now in use two thousand three hundred and seventy-six perfectly tight and free from the leakage of smoke and gas into the air chamber so common to Furnaces Its solidity, strength and durability combined with unparalleled economy in fuel and heating power superiority of arrangement and ease of management is working a complete revolution for all heating purposes

A public and perfect as this invention is yet it is liable to be misrepresented and misused by those Dealers who cannot have the sale of the Furnaces and who see in it a very interesting article to be sold by high pressure, but thin plan of retaining and burning the gases in cones over the fire is a fixed and positive law, and will remain so long as time

As usual, we offer a full assortment of Chilson's well known PATENT TRIO PORTABLE FURNACES the best portable Furnace known as it embraces the same valuable principle as the Cone Furnace also five sizes of the TRIO STOVES on the same principle of the Furnaces and so highly appreciated by those who know the Stove

We are prepared to fill all orders promptly, from Boston or from Mr Chilson's extensive Foundry and Works, located at Mansfield Mass on the Boston and Providence Railroad, the Junction of the Taunton and New Bedford Railroad

We can give any number of references that may be required for the perfect working of the Cone Furnace Trio Portable Furnace, Trio Stoves &c &c

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE

keep your Leather soft and pliable and it will need no Dressing

IS not a truth that will be denied by any person who has used it, that one of the greatest difficulties to contend with in the manufacture of leather is to make it waterproof and at the same time retain its pliability and softness, and that by a long and tedious process of experimenting I have discovered a preparation which perfectly accomplishes these two great properties with which leather is tanned It will make it either water proof or soft as desired, and will preserve the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet factory with my boots constantly in water and have not had my feet wet once, during that time I therefore recommend it with confidence to the public as the best article in the market

THE FIRST ELECTION IN MINNESOTA The first popular election in the vigorous young State of Minnesota takes place on Tuesday Oct 13th The canvass has commenced in the most spirited manner and there is evidently to be a hard struggle for the supremacy — There are but two parties in the field, the Republican and the Democratic and the importance of carrying it in this first election is fully realized by both Not only will it decide the political complexion of the new State and give to the successful party all the prestige of an opening victory and the control of the State offices but it will decide the political character of the two United States Senators to be chosen and more important still, will exercise a sensible moral influence upon the affairs of Kansas which Territory is now in what may be considered the crisis of its fate The bogus Constitutional Convention of Kansas has adjourned over till the 19th of October, with the prudent idea of waiting the result of the elections in Pennsylvania, Ohio Minnesota and Kansas before concluding its work If it shall be found that the influence and efforts and specious misrepresentations of the Northern democratic pro slavery leaders, and the hord for spathy of the Republican voters after the great effort of last year shall be sufficient to prevent a Republican triumph in any or all these States the pro slavery convention will feel emboldened to carry out the work for which they were chosen, and will attempt to fasten slavery upon Kansas, and will be key to refuse any submission of the new constitution to the people—leaving it in the hands of a pro slavery Congress to admit or reject Kansas with a slave holding constitution

The main influence of the Minnesota election will no doubt be exerted upon the decision of the Kansas question and the result in the new State is also felt by the black democracy to be very important to their prospects in the North west where they still hope to preserve a fragment of power Accordingly the federal administration and all its myrmidons are making a prodigious effort to carry Minnesota and they are blinded by fear all the immense power which government possesses over the territory through the vast operations of its land offices and consequently power of corruption and also by means of the Territorial officers who are the appendages of that administration In consequence of these adverse influences it is well known that the Republicans in the territory—newly organized as they are,—have had a severe contest to maintain and were barely able to secure a majority of the Constitutional Convention They are in good spirits however and are determined to use every effort to bring Minnesota into the Union of the United States upon the gloriously platform of Republican principles The sentiment of the people is for freedom and the party of border ruffianism and slavery can only prevail if prevail it should by means of the fraud violence and official bribery which will undoubtedly be used We have faith however that the people will triumph over all

The Republican State ticket in nomination is as follows For Governor Alex Ramsey, of Ramsey county, Lieut Governor John Ide of Wasecca Secretary of State Lucius H Stannard of Chisago Auditor A P Ives of Anoka Treasurer, Frank Marior of Dodge Attorney General Geo St Nourse of Hennepin (son of Dr Nourse of Bath) for Members of Congress Morton, S W Jackson Henry A Swift and Cyrus Aldrich Judges of the Supreme and District Courts are also to be chosen

The new constitution is to be ratified or rejected on the same day and a Territorial election also takes place for a delegate to Congress &c to hold in the event of the rejection of the State Constitution—a result hardly supposable we presume

The resolutions of the Republican State Convention have the genuine ring of freedom They place the party upon the platform adopted by that Republican Convention which was in session at Philadelphia *July 4th* 1776 and re affirmed on the 17th of June 1856 — They resolve to maintain the union of the States her rights of the States and the liberties of the people —deny the right of the federal authority to suspend the writ of habeas corpus, except in cases of insurrect on and invasion —condemn the monstrous doctrines of the Dred Scott decision—and place the party upon a pure Republican basis, without complication with Native American or other issues

SUSPENDED AT FALL RIVER —In consequence of the factory suspension in Fall River, suffering begins to be felt among the poor classes of that city The Star says

Whole families are suffering for *bread*—the fathers willing and eager to work but nothing to do

The Norwegian bark Elen which saved the passengers by the Central America, has not only been repaired at the Norfolk navy yard, at the expense of the government but she is to be supplied with two months provisions for her return voyage

The U S authorities have bought the Masonic Temple in Boston for the use of the courts of the United States The price to be paid is $105,000

Some fifteen years ago the government of the United States, under a no slavery administration invested several hundred thousand dollars of the Smithsonian funds in the bonds of the State of Arkansas. The measure was a palpable act of favoritism, for no well informed man had any confidence in the credit of the slavery cursed State The bonds were repudiated soon after the purchase, and the interest of the money invested in them has ever since been paid out of the Treasury of the United States

By an act of the last Congress the Secretary of the Treasury was authorized to invest the amount due to certain Indian tribes in stocks of interest paying States

Saturday's Whig contains the following despatch

WASHINGTON, OCT 2

The Secretary of the Interior has recently invested nearly one million dollars in state stocks of Missouri, Pennsylvania Illinois, N Carolina, Tennessee and Virginia in trust for the various Indian tribes All but $50,000 of that amount has been drawn from the treasury The present time was chosen for the investment in order to contribute something towards the relief of the money markets

From this it will be perceived that the Secretary in executing the authority given him by Congress, has not departed from the prevailing practice of the pro slavery democracy The stocks of four Southern and two Northern States were selected What proportion of the whole investment was made in the stocks of the latter States we are not informed but, notwithstanding they both voted for Buchanan, and have heretofore at some time refused to pay the interest on their bonds, (and we know not what other reasons could have controlled Mr Cobb in preferring their stocks to those of States whose credit had never been spotted or questioned,) we shall be disappointed if half as much money has been applied to the purchase of the stocks of both of these States as to those of Virginia alone,—and we shall be still more disappointed if the interest on the latter shall continue to be paid for the next two years The present debt of Virginia —absolute and conditional, and all of which must become absolute unless the State shall prefer repudiation— is now some $40 000,000 To finish the works of internal improvement to which she is already committed will require nearly $20 000 000 more The Richmond Examiner thinks she will refuse to make further appropriations for their construction This is a palpable repudiation, for the state in the absence of receipts from the public works, can not continue the payment of interest much longer depending as she does in part, upon temporary loans for the necessary means And to go on may be worse for her while her debt might be increased to $60 000 000 it may well be doubted whether the public works to which she has loaned her credit, would as a whole even if completed pay the cost of operating them

THE TIMES A large amount of sugar importers papers fall due at New York on the 16th ult over $1 000 000 The speculators went to Cuba for assistance, which has not yet come The pressure in that direction is severe

The New York News says it is very little sympathy is expressed for many firms which have succumbed to the pressure of the times —they having pursued a wise and courageous course with their eyes wide open They knew the inevitable result of over trading and can not plead ignorance or inexperience in their defence

Various Matters.

THE LARGEST STORY OF A PUMPKIN VINE — The Boston Herald says that Oliver W Lane, Esq a well known farmer of Bedford, has on his farm a pumpkin vine which, with its several branches measures 1084 feet From this vine he has taken 24 pumpkins which weigh 300 lbs

The Troy (N Y) Budget of Tuesday evening, says, "For the first time in a period of years a figure below $6 is used to day in the flour quotations

It doesn't dip very near that figure in this region

LEATHE & GORE'S FANCY SOAPS We have tested these excellent soaps and have to hesitation in pronouncing them the *best* we have ever used They possess all those properties and virtues claimed for them by the manufacturers They are a Maine production and reflect equal credit on the State and the manufacturers Their intrinsic merits will soon find a way for them in every household

CROW AGAIN! Geo W Herring of Vassalboro has sent us an egg laid by a hen of the common breed which measures 8¼ inch in length and 6½ inches in circumference Mr Herring says the editors on the Kennebec have been crowing about their large eggs and thinks they had now better lay another egg to come up to Penobscot production

Among the incidents of the Sepoy revolution the following possesses a thrilling interest —FRANK GORDON ALICE SERNE his wife and a few peons, managed to get into a small round tour when the disturbance began, the children and all the rest were in other parts of the fort—altogether 60 GORDON had a regular battery of guns, also revolvers and he and SERNE picked off the rebels as fast as they could fire. MRS SERNE load ng for them The peons say they never missed once, and before it was all over, they killed 37 besides many wounded The rebels after butchering all in the fort, brought ladders against the tower, and commenced swarming up FRANK GORDON was shot through the forehead and killed at once SERNE then saw that it was of no use going on any more, so he kissed his wife, shot her, and then himself

TERRIBLE ACCIDENT On the 30th ult, an explosion took place in the Knickerbocker Plaster Mill, corner of West and Horatio sts, New York The building was reduced to ruins, as also two tenement houses, Nos 611 and 612 West street burying beneath the masses of timber and brick upwards of forty persons Only one is known to be killed, but a number were seriously if not dangerously injured, and property was destroyed to the amount of $25,-000. In house 611 West street, Catharine Dogan was killed, and eight persons injured. In the factory six men were injured.

She is said to be a highly educated and pleasing vocalist

Mr Root left at noon, to meet the Hancock Musical Association, which meets to day at Ellsworth

ACCIDENT —Mr Coetelow, of this city, was yesterday driving a cow from his yard in the vicinity of Cedar street, when he took up a stone and threw it at her The stone unfortunately missed its mark and hit Wm Phillips upon his jaw, inflicting a severe wound

PIERCE'S BENEFIT We are pleased to learn that Pierce & Marston's grand and beautiful exhibition of Dr Kane's Arctic Expedition is to be exhibited in this city, at the City Hall, on Thursday next, for the benefit of Mr C W Pierce, and we have no doubt that his many friends will see that the house is crowded — This Panoring is a long distance in advance of any other Panorama of Kane's Expedition now on exhibition in the country, and we hope our citizens generally will testify their interest in the matter by giving him an overflowing house

The payments into our Portland banks were the heaviest on Saturday that they have been for many years yet the demand for money in the street was even less than the ordinary Saturday calls

These heavy payments were all promptly met, only one note, and that of the trifling amount of $100, due from a party living out of town, having been protested for non payment The amount paid at the several banks in the city reached $160 000 The number of notes paid at the Canal bank was greater than ever before paid in a single day in that institution —*Portland Advertiser*

The trustees of the Bondholders of the K & P Railroad, have decided to rebuild a new depot at Brunswick on the site of the old one. The dimensions are to be 126 feet long, by 45 feet wide, being 36 feet shorter and 16 feet narrower than the one recently destroyed

The house and barn formerly owned by Hon Nathan Clifford and now occupied by Mr Orin Chellis at West Newfield, were destroyed by fire on Thursday night

APPOINTMENT John D Evans, of Maine has been appointed by the President, Receiver of Public Moneys at Minneapolis, Minnesota Territory, in place of R P Russell, resigned

MOST MAINE MAN LOST Mr W F Fletcher of Biddeford who was rescued from the ill fated *Central America*, states that Mr Sweat Hutchinson of Skowhegan, Mr David D Smith of Cornish and Mr Samuel Graham of Acton, were in company with him on board the steamship and were all lost Mr Smith had been absent about eighteen months, and had accumulated about $1600, which was lost with him

UNION OF NEWSPAPERS Drew's Rural Intelligencer published at Augusta has been united with the Gardiner Transcript, published at Gardiner The consolidated paper will hereafter be published at Gardiner by Richard B Caldwell, Mr Drew to be the editor

THE WASHINGTON REPUBLIC is issued weekly and semi weekly—the former at $2 per annum, single copies —three copies for $5, ten copies for $16,—the latter for $3, per year single copies, two copies for $5, five copies for $10

The paper is highly and deservedly recommended to the support of Republicans throughout the Union Hon FRANCIS P BLAIR, of Washington gave a merited testimonial to the industry and talent of Mr WESTON, in a letter of which the following are extracts

DEAR SIR Near the close of the last session of Congress, an informal meeting of the Republican members had under consideration the subject of establishing a Press, to promote the cause of the party, and as they believed, of the country All held it essential that such an organ should exist at Washington city

Since the adjournment of Congress I have been in communication with Mr Weston, of Maine, who has undertaken to accomplish the wishes of the Republicans by establishing a paper, the Prospectus of which I herewith send you I have received letters from the Senators and Representatives of Maine, giving assurance that Mr Weston (for years the Editor of the Age, a leading Democratic newspaper of that State) is highly qualified for the work he proposes to execute

During the late Presidential election, I made the acquaintance of Mr Weston. He prepared several of the ablest papers in support of Republican principles that appeared during the contest They were distinguished by research, clear statement, fine reasoning, and admirable eloquence All his efforts through out the struggle were marked by earnestness interestedness, a firm, temperate, honest, yet anxious zeal for the cause in which he volunteered his services, which convinces me that no one is better suited to contribute to its success as an Editor

I am persuaded that Mr. Weston's taste and talents will make his paper interesting to general readers, as well as politicians.

Col. Benton is improving slowly, but it is feared that his disease is chronic, and that he may never recover his health and usefulness.

PREMIUMS

Awarded at the State Fair, ending October 2d.

The Committee on Hats, Caps and Furs, award the Society's premiums as follows

For best dress hat, of fur or silk,	
1st Catmaud & Bristow, Bangor,	$2 00
2d Hemenway and Hersey, do	1 00
For best fur cap,	
Hemenway & Hersey Bangor,	2 00
For best cloth cap,	
Hemenway & Hersey Bangor,	1 00
For best child's hat or cap,	
Catmaud & Bristow, Bangor,	1 00
For best display of dress furs,	
Hemenway & Hersey, Bangor,	5 00

The dress hats of Catmaud & Bristow were superior for firmness lightness and elasticity The cloth caps of Hemenway & Hersey were superior for style and beauty of finish The children's cloth caps of Catmaud & Bristow the best exhibited

The display of dress furs by Hemenway & Hersey were very superior and of beautiful finish and workmanship, and reflects great credit on the manufacturers and their assistants

The Committe wish to notice a fine display of dress furs by Catmaud & Bristow, as being of excellent quality and finish Also they take pride in mentioning a native sable cape, made by Mrs A Barrett of Bangor, as being very superior make for a lady not in that line of manufacture

The Committee on paper, printing and binding, award the Societies premiums as follows For best specimen of printing paper, manufactured in the State

Crosby Holt & Co, Hampden,
Diploma or $5 00

For best specimen of book binding,

F T Harris, Bangor, Diploma or $3 00

For best specimen of blank books, made in the State,

Miss Mary O Fairbanks, Bangor,
Diploma or $3 00

The specimens of tubing by the same lady are very perfect and would do credit to any establishment

Mr E F Duren of Bangor, made a very handsome display of miscellaneous books and bibles and the committee recommend an award of one dollar

We are disappointed that there are no specimens of printing, and no more entries of book binding blank books, and paper and we hope that these important branches of manufacture and art, will find more competitors at our future exhibitions

The Committee on FINE ARTS award the Society premiums as follows —

For best mural work $5 00 to Miss Julia E Furbish of Portland

For best piano stool in Maine Diploma and 10 00 to Edwards & Co of Portland

For best melodeon or reed organ Diploma and 5 00 to J D & H Cheney of Portland

For best oil painting, exhibited by an artist of Maine Diploma and 5 00 to J P Hardy of Bangor

Second to 3 00 to James Emery of Bucksport

For best painting, in water colors 3 00 to Mrs J C Weston of Bangor

For best specimen of graining on wood 2 00 to James Hinch of Hampden

For best Ambrotype Diploma and 2 00 to M Jordan of Bangor

For best Daguerreotype Diploma and 2 00 to T R Hemenway of Bangor

For best specimen of penmanship Diploma and 2 00 to Chas P Ferguson of Bangor

For best specimen of drawing, (any machine Diploma and 2 00 to Chas S Fellows of Bangor

For best lot of topographical drawing (more exhibited)

For best pencil drawing, Diploma and 2 00 to Mrs J C Weston of Bangor

For the best Crayons we award a Diploma and 2 00 each to Mrs T M Bradley and to Mrs John Barker both of Bangor deeming such awards due in our judgment both proper and just Several specimens of this art were exhibited by both these artists and after closely examining those of each collectively and individually we are unable to pronounce the production of either artist superior to those of the other except perhaps in the minute and delicate matter of style about which the most skillful judges differ Some connoisseurs would prefer the crayon of The State, by Mrs Bradley others that of Bibamus by Mrs Barker and yet both concede equal merit to those who have executed them with such skill and full appreciation of the subject

The number of articles contained in the list given us to examine was about five hundred less than one fifth part of which are included in the above classes on which the Society offer premiums Among the classes not included in the above list are work in hair mosses grasses beads shells leather (for frames) artificial flowers worsted needle work (of which last are many very handsome) also carved work engraving on wood &c &c To these may be added a large number of unclassified articles which evince great skill and cultivated taste A report on these with an award of a Diploma or gratuity according to their merits will be submitted as soon as practicable

MORALITY OF SLAVEHOLDING RELIGION A correspondent of the Northern Independent writes as follows

While reading in one of our Southern cities I boarded with a reverend gentleman, who appeared candid, grave and conscientious and without wearing apparel, by the way, drab colored, broad brimmed beaver, straight collar shad bellied coat, and snowy white cravat gave unmistakable evidence of his clerical caste — But he was a slaveholder, and had been so for years, and was not ashamed of it, shame on him! Sometimes he had family prayers, and sometimes not, as it might happen Sometimes, instead thereof, he would scold and storm at his slaves, either one of which was, I suppose equally acceptable or precious to the all wise Hearer of prayer His slaves consisted of the following group a mother of about fifty, and some eight children, from a young man of twenty to a child of some three years old The woman was a mulatto, and her children of a mongrel sort, from the wooly headed African to the fair quadroon beauty

"Are those your slaves" said I to my clerical host, soon after coming to board with him

"Yes" he replied

"Are all these her children?

"Yes

"Then she has a husband? I remarked.

"No

"But she once had one?" continued I

"Yes, said he, and added, 'A few years ago I sold him'

"What, having children, and no husband?

"Yes, no trouble about that.'

"But how is that said I, "the eldest one is a regular black, and the little girl, pointing to one almost white, "is whiter

"Oh, said he "that one she had by her black man, but this white girl she had where I let her out at the hotel."

"What, a white man insult your woman thus, at a hotel?' said I, and continued, "did you not feel like prosecuting the wretch who so abused her?'

"No," was the answer of the reverend slaveholder; and he added with a meaning smile, "that white one will fetch a heap more money than the others."

The Money Crisis in Boston.

BOSTON, Oct 6

The financial panic has about disappeared, and business in State Street begins to assume its usual quiet character Money, however, continues tight and few transact ons in stocks of any kind No failures reported to-day—The suspension of John A Lowell & Co is much regretted

The Pennsylvania Legislature.

HARRISBURG, Pa., Oct 6

The Legislature convened to day Governor Pollock's message recommends that the banks which may be relieved from the penalties upon such suspension by existing laws, be required to make a satisfactory arrangement with the State Treasurer, by which he will be enabled to convert his funds in the treasury, and the balances standing to his credit in any solvent banks, into specie as soon as necessary for the payment of the funded debt, and that such banks which have paid specie for all their liabilities immediately prior to the late general suspension be required under limitations and restrictions to receive the notes of each other continuing solvent at par in payment to be relieved from this condition and for the relief of debtors, that a provision be made for the extension of the time in which action on payment may issue The issue of the notes of a small denomination should be authorized now the banks during their suspension be permitted to declare dividends exceeding six per cent per annum The Governor states that the monied institutions of the State are sound and solvent condition, and that the measures suggested are adopted as wise and prudent

In the House, before reading the message, a motion was offered inquiring the banks to furnish the accounts connecting their condition with the Legislature adjourned Its question was debated after reading the message

From New York.

NEW YORK Oct 6

The day closed upon a very tight market The difficulty of obtaining exchange have induced merchants to order grain sent forward, guaranteeing the expenses here Standing bills closed at 99 a 102 to cover actual transactions—some names sell a little higher, but only in small sums

The receipts at the sub treasury were $228,000 and payments $1,238,137—balance $6,000 45 The receipts included $160 000 transferred from Boston and the payments included $111,000 California drafts $200 000 in small drafts went to the mint for which large bars will be returned to morrow, and $600 000 Bleecker Street Savings Institute in specie for redeemed United States stock—The American Exchange bank after honoring checks of Messrs Luther & Church up to the close of business yesterday refused to pay them this morning and they were protested

From New Orleans.

ST LOUIS, Oct 6

A meeting was held yesterday at the Merchants Exchange to consider the currency question

Mr Henry Bank Commissioner of Illinois, made a statement of the condition of banks of that State which was generally regarded as favorable The committees appointed to report on the subject met in the afternoon but were not prepared to come to a definite conclusion, and went on receiving the currency reports and adjourned previous to adjournment A meeting was held at the Exchange to day

The failure of Lucas & Co created no excitement as it was a set down known to be ten thousand dollars Their liabilities are principally to day upon the Bank of Illinois the Boston mills and Germania Bank Louisville There is no evidence of a run on the regular banks remaining open

From Washington.

WASHINGTON, October 6

Messrs E H Dodge, merchants and others are said to have made an application before they have been considered by the business firm in the District Columbia

Arrival of the Fulton.

NEW YORK, Oct 6

The steamship Fulton arrived at this port at 4 o'clock this afternoon She reports having spoken a fishing smack off Cape Ann at midnight on Friday last, which he says is to take to the nearest telegraph station the next morning but, it seems he neglected to do so

The Fulton brings London papers of Wednesday but they contain no news of importance

Central America Passengers.

The New York Times has obtained the following information from the survivors brought in by the Laura.

The barque Laura came up from quarantine and anchored off Castle Garden at 9½ o'clock this forenoon, having the three rescued men on board Mr Rice and his companions were soon landed, however, and passed a short time at Castle Farden, in conversation with the officers of that institution, and such friends as had heard on their arrival, and had assembled to greet them They were almost suffocated by the crowd which pressed around them, and it was difficult to answer one half of the questions of their friends The colored man, Dawson, evidently impatient of the distinguished attention shown him, soon found his way out of the crowd and limped away

Mr Rice and Mr Grant are still weak, and much reduced in flesh, their feet are tender and swollen, and their lips, face and hands show the traces of sores, and where the skin has been peeled off by the action of the salt water washing over them so many days, and their exposure to a scorching sun

Mr Grant has the appearance of a man just recovering, from protracted and severe illness, his lips are black—his cheeks are sunken—Both he and Mr Rice walk with difficulty They were eight days and twenty hours in all upon the hurricane deck and in the boat Mr Rice was three days of this time floating upon a piece of plank The first night of their sufferings there was a heavy rain, some of which they caught and drank in considerable quantities Great pains they would have all killed themselves drinking the water if it had not ceased raining He also says they should not have continued alive but a few hours longer When taken in with the little brig Mary, for Greenock they could scarcely move a hand, or speak their flesh was wasted, and their skeleton forms were lightful to each other—They were also covered over with small boils, which were fast breaking out into painful sores They had seen their companions die, one by one and had lost all hope of being saved themselves or both, fallen in with

They had to be bailed on board the brig by the seamen, and it was several days before they could walk, their feet were so much swollen and so sore Food was given them very sparingly until they were partially restored and Captain Wilhamson and his officers constantly cautioned them against eating to excess In fact it was several hours before a natural appetite for food returned They had very little clothing, on them when picked up, but they were soon supplied with all they required, on board the Mary, whose captain and officers acted towards them with great humanity In one week from the time they were picked up they spoke the barque Laura from Bremen for New York, Capt Williamson, and were put on board of her (on the 28th inst at noon,) and brought to this port Capt Williamson had a full full of passengers, but did everything possible to supply their wants.

Mr George Rice, the second engineer of the Central America, suffered more physically, than the two rescued with him, from the privations of food exposure and suffering on ureq previous to being picked up by the brig Mary Immediately upon the arrival of the barque Laura at Castle Garden, he was conveyed to a carriage by Mr Ashby, chief engineer of the Central America to Mr Hollinton, of Battery Hotel, who had gone to meet him The meeting between Ashby and Rice was quite affecting and so overpowered Rice that he had to be helped to the carriage His first inquiry was how many of the crew and passengers of the steamer had been saved? Capt Herndon, said he, "the noble and gallant commander of the steamer I fear we shall never see again, and Van Rensalaer, too, the first officer, one of the bravest and most generous fellows that ever lived, I fear, has gone down with the cap ain

CASE OF ASTHMA.

The following letter from Hon Myron Lawrence of Belchertown, a valuable testimony in favor of the Oxygenated Bitters

BELCHERTOWN March 16

Dr Green—I take great pleasure in informing you of the results of the Oxygenated Bitters season and the kind ness to send me For upwards twenty years I had suffered with Humoral Asthma I was compelled to sit up one third of the nights within the time to bed at all and the rest of the time my sleep was interrupted by violent fits of coughing and great difficulty in breathing In all my attendance upon our courts I never went to bed in North ampton in twenty years but twice and then was compelled to get up As well as I could bed without difficulty and sleep profoundly I took your medicine according to directions The violent paroxysms immediately abated and perseverance in the use of the remedy has removed all the trouble as much as consequence The value of such a remedy is incalculable Respectfully yours

STUMPS.

HALL'S
New Stump Machine!

I HAVE INVENTED an improved STUMP PULLER, which two men can carry about the field from one stump to another, and draw the largest pine stumps out of the ground by hand power, without oxen horses, ropes or blocks, and without digging round

This is a great improvement on Stump Machines as two men will take up a common stump in about two minutes, and dispenses with any team, and can be worked when the ground is soft in the spring, and does not break up the grass field as by the old process of a heavy team

This Machine is entirely different from any ever used before comes cheaper and is very durable Price $50 I have them now on hand and for sale at my mill in Brewer Me W HALL.

STEAMERS.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveied across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U. S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus

☞ *Tickets must be stamped by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* of the Atlantic and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ **Torrey's Bee Hive.**

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

☞ For sale, fifty swarms of Bees, with the new hives

A MEDICIE THAT NEVER DEBILITATES.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonfuls at the first attack, and it will soon disappear For an excess of alcoholic stimulus, or when food sours on the stomach, take the Invigorator after eating, and it will not prove disagreeable or oppressive For Heartburn, Palpitation, or Difficult breathing, take a tea spoonful once or twice a day. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable It will so tone the appetite and make the food digest well. Nightmare, take a teaspoonful on retiring, and the demons of dream land will all be tamed After eating a hearty dinner, take a dose of Invigorator, and it will relieve all oppression or Biliness. The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public, prepared with much skill by a scientific man, partial entirely for diseases of the Liver, as Dr Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world simply because it possesses merit. Its convince all by trial that it is all that its proprietors claim it to be, if any of our readers are suffering from any such diseases as are described in Dr Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful virtues and healing properties in Diseases of the Liver, Stomach and Digestive organs. It come to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of constitutional debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr Sanford's Liver Invigorator is the name we refer to. We always have been credulous about cured by patent medicines, but we are convinced of this medicine for family use, is not overrated by the host of recommendations it has Our advice is, for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it, our word for it, relief will be experienced.

Blessings to the Invalids who use Dr Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away as daylight will banish darkness,—and thus there can be no doubt to those who try it, for it carries conviction with every dose taken. And the evidence is the thousands of certificates from those who use it, or have been cured by it Try one bottle—if it does not benefit, then we are mistaken.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Obstinate Cutaneous Eruptions, Rheumatism, Bilious Diseases, Debility, and all diseases arising from an impure state of the blood.

THIS WONDERFUL REMEDY is to alleviate human suffering by means put together In the treatment of many diseases in the world for the Pulmonary complaints, from Maine to the State of Oregon, and wherever known it finds its warm supporters. Thousands have been forced to acknowledge its wonderful curative powers, and have given it a standard place in their household as a safe guard against consumption, and have found it to be a sure remedy in the hour of need.

This remedy in its operations on the system, tends to purify the blood, and restores the lungs to their natural tone and vigor, thereby causing the patient to expectorate freely, and in this manner throws off the diseased matter which has been the cause of the cough, and by its healing properties, heals the lungs, and thus restores the patient to health.

Some poor sufferer is led to inquire in regard to what we have said, if we can restore a portion of the lungs that are literally destroyed by consumption. We certainly do not believe it can restore a portion of the lungs that are entirely destroyed, but we do believe it will restore the system to such a healthy condition, that it will throw off the diseased matter, and heal the lungs, and thus restore the patient to health.

Since the discovery of this remedy, which has been long in use, and is now becoming perhaps, the most extensively known of any medicine in use, it has been found to be quite a blessing to the human family, and in the possession of which no family should be without.

SUPPLIED AT THE DEPOT,

Stage Office, Bangor, Me.

Where it can be had by the bottle, or by the dozen, and also of the Proprietor, who resides in the city of Bangor, and can be found at his residence, or at his office, at all hours of the day, except when absent on business.

Price.—One bottle $1,00, half a dozen for $5,00, or at one time $8,00. Sent to any part of the country on any number of bottles, on the receipt of the money or its equivalent.

The proprietor has in his possession numerous letters from persons in different parts of the country, recommending the use of this remedy, and many of the most respectable citizens of Bangor have used it in their families, and have given it the highest commendation in its use. It is being extensively used in all its medicinal virtues, for colds, coughs, and will collect colds, as best suits the patient, and can be found cheap, and economical as a family medicine, one pound of which will be sufficient for 12 pounds of coffee. It is prescribed by many eminent physicians, to invalids, as a substitute for Coffee, as a nutritious beverage, and as a tonic for Dyspepsia. Bid ours affection, &c.

☞ Be careful to observe that the signature of each bottle bears our trade mark—"Chicory Coffee"—as there are many imitations called Extract of Chicory, &c.

☞ *To Grocers and Dealers*—Arrangements have been made enabling them to supply their customers at the same low rates

TO CASH PURCHASERS—Our object in putting up this article is to secure large sales at small profits, and offer inducements which cannot be offered by those who do business on the credit system. We therefore confidently invite an examination of the merits of our stock and our prices, as we can offer better inducements than those of any other house
